Job | Salary | Company | Rating | Reviews | Benefits

Your primary responsibility will be developing features for the SaaS based Agent Desktop application in an MVVM architecture, utilizing C# and WPF. CRM Solution applications target the travel industry and road safety & security target police services.

Core Duties and Responsibilities

- Participating in requirements gathering and/or technical design sessions with key stakeholders
- Strong problem solving, collaborative skills and developing creative solutions. Identify system deficiencies and recommend solutions
- Designing, developing, testing, and implementing coding changes for IEG internal Applications
- Assist in physical and logical database design, development of system architecture, and prototyping
- Rewrite VB6 applications and modules to C#
- Writing Technical documentation and prepare User documentation
- Investigating and resolving application errors and/or issues reported by application users
- Work with team members in sharing knowledge / expertise
- Providing regular status updates to the team, team leader, project manager, and/or supervisor
- Manage expectations effectively through accurate estimation and delivery, meet deadlines, work within project timeframes, and to quickly adapt to changing business needs

Knowledge, Technical and Soft Skills

- Excellent coding skills in C# with knowledge in WPF, WCF, LINQ and other .NET APIs
- MVVM – Model view, view model
- Solid knowledge of Visual Studio .NET 2013 and experience with ASP.NET, XML, Web Services and any of the .NET languages (VB.NET, C#, etc.)
- Experience with application development on MS SQL Server and Oracle, good understanding on relational database. Experience with Team Foundation Server is a plus
- Solve complex algorithms and problems without relying on Google searches
- Practical understanding of software engineering with object-oriented methodology, including familiarity with various design patterns and architectures
- 5+ years of "Hands-on" object-oriented software development experience, with a focus on creating enterprise solutions to solve complex business issues
- Experience with application development on MS SQL Server and/or Oracle, good understanding on relational database
    - Good communication and interpersonal skills, good team player with ability to communicate positively and professionally in an iterative process
    - Experience on software design patterns, UML, code reviews, test automation framework is a plus
- Experience in analyzing information, software algorithm design, software design, software debugging, software development fundamentals, software documentation, and software testing
- Demonstrated experience translating business needs and requests into functioning software
- Proven ability to take the initiative to drive the design and influence highly technical and cross-functional teams without formal authority
- Innovative & creative

SUMMARY

A digitally savvy, seeking out innovative solutions and embracing evolving technologies, looking for an opportunity that best utilizes my skills, educational background, and work experience.

SKILLS

Soft Skills	Hard Skills
Communication	Software Design
Collaborative	.Net Core
Creative	C# Development & WPF Framework
Cross-Functional	Oracle
Customer Service	GitHub and Gitea
Influence Everyone	Technical and Tech-Savvy
Innovative Mindset	Development Documentation
Interpersonal Skills	Database Management
Meet Deadlines	Big Databases Handling
Problem Solving	Flexible for Rigid Architectures
Punctual	Xamarin (XAML)
Team Leader and Mentor	Fluent in Software Designing

EDUCATION

Graduate Certificate | Artificial Intelligence and Machine Learning
Lambton College | Toronto, ON — Sept 2023 – May 2025

Learnings: Big Data Analytics, Python, Data Science, Hadoop, and Design of code.

Bachelors | Computer Engineering
Gujarat Technological University | Ahmedabad, India — Aug 2019 – May 2022

CGPA: 8.95

Learnings: Algorithm Design, Code Documentation, Theory of Computation, Microprocessor Architectures, .Net Core, Software Design, Relational Database, Oracle, Software Development, Advanced Java and OPP Concepts, Big Data Analytics, Python, Data Science, PHP, Android Application Development, and Artificial Intelligence.

Diploma | Computer Engineering
Gujarat Technological University | Ahmedabad, India — Aug 2019 – May 2022

CGPA: 9.57

Learnings: Algorithm Design, Code Documentation, C, C++, Microprocessor Architecture, .Net Core, Software Design, Computer Fundamentals and Architecture, Software Development, Java and OOP Concepts, PHP, HTML, CSS, JavaScript, PHP, Android Application Development, PL/SQL, Relational Database, Oracle, and Cyber Security.

EXPERIENCE

Junior C# .NET Developer | C# (WPF)

Kevision Systems | Ahmedabad, India. Jun 2022 – May 2023

Development: .NET Core, C#, WPF Framework (MVVM), Design using XAML, MAUI, Gitea, Visual Studio, MongoDB, NoSQL, Image Processing in C++, Inspection Management System, NodeJS, Database Handling, and understanding and exposure of the pharmaceutical industry in a product-based company.

- Focused on developing software that runs on machine performing inspection.
- Given responsibility of handling a sub-project and a junior for mentoring.
- Participated in various projects internally and performance over-exceeded the expectations.
- Designed and developed small miscellaneous tools and softwares that increased productivity of employees, which increased their productivity by 30% to 50%.
- Awarded twice for providing technical solution in team and mentoring a trainee.
- Providing support to the clients as a technical team member with strong communication and providing software maintenance.
- Documenting code and work done in both computer and on-paper and try to improve based on analyzing it.
- The company achieved 24% sales in 2022-23 financial year of India, which generated the highest sales in the history.
- Revenue of 29% uplifted by the company for pre-booking of solutions at final developing stage.

Software Intern | Java & Python

Silverwings Technologies Pvt. Ltd. | Ahmedabad, India. Jan 2022 – Apr 2022

Development: Java, Python, IoT, MVC, SQL, Firebase (NoSQL), and Cloud Computing.

- Joined as an intern and trained in Java and Python.
- Joined the team for developing advanced parking management system as a research project.
- Provided innovative ideas, met deadlines, and development of creative and cross-functional solutions.
- Designed and developed a web portal that interacts live with IoT devices with a secured payment gateway.
- Sold to 33% of total organizations for this project by sales team after launching the product, earning 26% income.

ACCOMPLISHMENTS

GTU Zonal Techfest 2020 – Web-E-Thon | Second Runner Up

Participated in developing a web-based project in a team of three from scratch and won an exclusive reward by achieving third position while pursuing my bachelors.

Technical Solution Award | Quarter 4 of 2022 and Quarter 2 of 2023

Awarded for providing best technical solution in team for two quarters in two teams while working as a Junior Software Developer in Kevision Systems.
